- **4.2 Most important symptoms and effects, both acute and delayed** No data available
- **4.3** Indication of any immediate medical attention and special treatment needed Consult a doctor immediately.

Revision 3 – 24.03.2025 Replaces rev. 2 – 09.11.2023

# 5 FIREFIGHTING MEASURES

#### 5.1 Extinguishing media

Suitable extinguishing media CO2, powder or water spray. Extinguish large fires with water spray or alcohol-resistant foam.

Unsuitable extinguishing media None

# 5.2 Special hazards arising from the substance or mixture

Avoid breathing fumes. If involved in a fire, the following may develop: carbon monoxide, hydrochloric acid, nitrogen oxides.

### 5.3 Advice for firefighters

Avoid breathing fumes. Prevent the water used to extinguish the fire from flowing into the sewer, groundwater or surface water.

Normal fire-fighting clothing, such as self-contained open-circuit compressed air breathing apparatus (EN137), flame retardant suit (EN469), flame retardant gloves (EN659) and firefighter boots (HOA29 or A30)

# 6 ACCIDENTAL RELEASE MEASURES

### 6.1 Personal precautions, protective equipment and emergency procedures

### 6.1.1. For non-emergency personnel

Move away from the contaminated area immediately and keep to windward.

#### 6.1.2. For emergency responders

Wear: Chemical risk gloves compliant with EN420 EN374 Standards Complete clothing compliant with the UNI EN 13034: 2006 standard Semi-face masks with ABEK2P3 R filters conforming to EN14387: 2004 + A1: 2008

#### 6.2 Environmental precautions

Prevent infiltration into the sewer, groundwater and surface water. In case of penetration into the ground or infiltration of bodies of water, notify the competent authorities..

# 6.3 Methods and material for containment and cleaning up

- 6.3.1. Advice in order to contain a spill Avoid formation of dust
- 6.3.2. Advice in order to clean-up a spill
- Wash the contaminated area with water. **6.3.3** Other information
- None.
- 6.4 Reference to other sections

# HANDLING AND STORAGE

# 7.1. Precautions for safe handling

7.1.1 Raccomentations in order to manipulate the substance or the mixture in a safe manner, such as containement measures and prevention of fire and aereosol and powders formation

Keep containers tightly closed in a cool and dry place

7.1.2 General recommendation on work hygiene
 Do not eat, drink and smoke in work areas. Wash your hands after use. Remove contaminated clothing and protective equipment before entering eating areas

7.2. Conditions Safe storage, including any incompatibilities

7.2.1 Risk management associated with explosive atmospheres, corrosive conditions, flammability hazards, incompatible substances or mixtures, evaporative conditions, potential ignition sources

Do not store along with oxidizing agents

7

Revision 3 – 24.03.2025 Replaces rev. 2 – 09.11.2023

7.2.2	Containment of the effects of weather conditions, pressure, temperature, sunlight,
	humidity and vibrations

Keep away from humidity, air and direct light.

- **7.2.3** Conditions for keeping substances / mixtures intact Store in closed and labeled containers. Close the containers immediately after use.
- 7.2.4 Provisions relating to ventilation, specific design of storage rooms or containers, quantitative limits in storage conditions, compatibility of packaging The storage rooms must be cool and dry. Store in an area without drains or access to sewers

# 7.3. Specific end use(s)

Industrial use. Catalyst for synthesis

# **EXPOSURE CONTROLS/PERSONAL PROTECTION**

# 8.1. Control parameters

For this substance, the occupational and biological exposure limit values corresponding to the relative Community limit values referred to in Directives 98/24 / EC and 2004/37 / EC have not been established.

### DNEL

No data available up to now **PNEC** No data available up to now

# 8.2. Exposure controls

# 8.2.1 Appropriate engineering controls

Use under a fume hood. Periodically check the range of the hood.

# 8.2.2 Individual protection measures, such as personal protective equipment Eye/face protection Splash goggles compliant with Directive 89/686 / EEC and with standard EN166: 2001 Protective gloves in latex or nitrile rubber, compliant with EU Directive 89/89 / EEC and the resulting

standards (EN374). The breakthrough time of the<br/>gloves must be ≥ 480 min and the thickness 0.11<br/>mm.Skin protection (body)Complete clothing compliant with UNI EN 13034:

Complete clothing compliant with UNI EN 13034: 2006 type 6 Mask with P2 filters None

# 8.2.3 Environmental exposure controls

Respiratory protection Thermal hazards

Maintain suction in all environments using localized collection systems and ambient air exchange. Convey the aspirated volumes to an abatement system and then into the atmosphere. Do not use recirculating air suction systems. Avoid any spillage into the environment.
